RSE

**Relationships:**

- that people may be attracted to someone (of the opposite or same sex) romantically and sexually
- that civil partnerships and marriage are examples of stable, loving relationships and a public demonstration of the commitment made between two people who love and care for each other and want to spend their lives together and who are of the legal age to make that commitment
- that forcing anyone to marry against their will is a crime; that help and support is available to people who are worried about this for themselves or others

**Aspirations, work and career:**

- that some jobs are paid more than others and money is one factor which may influence a person’s job or career choice; that people may choose to do voluntary work which is unpaid
- to identify the kind of job they might like to do when they are older
- to recognise a variety of routes into careers (e.g. college, apprenticeship, university)

We will be learning about and exploring our school value of tolerance.
